DETAILED ACTION***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct inventions of the claimed invention: Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-3, drawn to a process for making an optical article, classified in Class 264, Subclass 1.32.

II. Claims 4-6, drawn to an optical article, classified in Class 359, Subclass 626.

2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the process as claimed can be used to make a wide range of ornamental plastic articles; moreover, the product as claimed can be made by a materially different process such as Grinding or Cutting. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. A phone call was made to Bruce Bernstein's office on February 3, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an

Art Unit: 2873

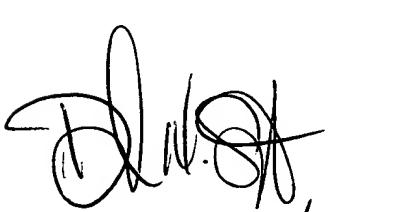

inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
